MSTU Staff Present: Sean Callahan, Executive Director of Corporate Business Operations; Debrah Forester, CRA Director; Tami Scott, Senior Project Mgr; Shirley Garcia, Operations Coordinator; Megi Roko, Executive Secretary.

IV. Adoption of Minutes: George Douglas made a motion to pass the November 7, 2018 Minutes as written. Second by Sheila Dimarco. Passed Unanimously.

V. Community/ Business Presentations:
A. Update on Landscaping—Aaron Gross, Ground Zero Landscaping— The Perennial Peanut and Calusia were planted at Celebration Park by the sidewalk and guardrail. Aaron placed Calla Lilies, Bougainvillea, Geranium, and Petunia in the planters on the bridge as previously requested to test which varieties thrive under the new irrigation system. The valve on island 13 and 15 were repaired and island 13 was planted with perennial peanut. The North pump is currently in the process of being updated and repaired. All Fox Tail berries were cleaned up and the seed pods were pruned to prevent berries from dropping. In addition, the bromeliads were cleaned up. All provided Christmas banners were installed. It was also noted by George Douglas, Advisory Board Member that a Bougainvillea located over the bridge was uprooted but took the time to replant himself.

VI. Old Business:
A. Bayview Park: Debrah Forester, CRA Director briefly reviewed the status of Bayview park and introduced Barry Williams, Parks and Recreation Division Director, to further discuss the updates. Mr. Williams discussed parking concerns in the boating community at Bayview Park on Hamilton Avenue. Keisha Westbrook, RWA Senior Project Manager presented a visual of the proposed design and discussed the project. Sandra Arafet mentioned budget and time concerns of Thomason Drive and how the Hamilton Ave project would delay the progression. Maurice
Gutierrez, Advisory Board Chairman expressed apprehension due to previous failed efforts. Commitment, and allocation of funds was requested from the Parks and Recreation Department to avoid possible future issues. Chairman Gutierrez questioned the possibility to merge the two projects together to avoid doubling the work effort, but the required work permits will prohibit that. Ms. Westbrook recommended phasing the plans and inserting the Hamilton Ave project as an add alternative option to the original proposal. The Advisory Board agreed to support the Parks and Recreation proposal to forward the recommendation to the Board of County Commissioners for approval and to fund the beautification enhancements of the project. Sandra Arafet made a motion to include Hamilton Ave as an add alternative to the Thomason Drive project plan and offer support to the Parks and Recreation Department’s Bayview Park proposal. Sheila Dimarco seconded the motion. Passed unanimously.

B. Bayshore Drive Streetscape Renovation Improvements: Mike McGee, Landscape Architect presented a new proposal that included the Redevelopment Plan updates. The new draft proposal incorporated new lighting, maintenance agreements, wider sidewalks, and parallel parking into the previous proposal. Mr. McGee explained the additions and discussed the process of the phased project. In addition, a road diet was also included in the proposal that was not well received. The board liked the idea of reducing the speed limit, and widening the side-walks to improve walkability, but fear the quality of life of the community would be altered for worse if a road diet was implemented. The board requested alternative proposal that implemented changes for side streets of the community. Robert Messmer made a motion to not revisit a road diet. Susan Crum seconded the motion. Passed unanimously.

C. Pavers: Mike McGee, Landscape Architect addressed the constant maintenance issues and safety concerns with the current pavers. Within Mr. McGee’s proposal, he explained potential resolution and design changes that would positively affect the area in respect to the walkway that includes capturing the 1 foot utility strip. The areas with the most traffic were highlighted as priorities and a phased approach was also recommended. A complete street light plan was requested to have consistency with Thomasson Drive. It was also suggested to extend area 1 within phase 1 of the plan that would take in Lakeview Drive pavers. Tami Scott, Senior Project Manager notified the board that Capital Contracting had been chosen to repair existing pavers. Mrs. Scott recommended considering hiring a fulltime paver company that would continuously repair pavers to which the board was very receptive to.

D. Thomason Drive: The project is moving forward to the procurement process and will be presented to the Board of County Commissioners on January 8, 2019 to negotiate the CEI services contract. Tami Scott, Senior project manager presented a visual of Thomason Drive that displayed the Cirrus Point project differences that will impact the Bayshore Beautification MSTU projects. It was mentioned that at a previous meeting, Cirrus Point is receptive to the MSTU capturing the easement to avoid implementing a turn lane into the property. Mrs. Scott also noted Cirrus Point has a development commitment statement in its PUD to contribute to the Thomason Drive project, and as of recently the lot has been cleared due to a code issue. The Advisory Board verbalized support to the CRA Staff to continue the discussion with Cirrus Point and company.

E. Redevelopment Plan: Debrah Forester gave a brief overview of the Land development code revisions Evan Johnson, Tindale Oliver Consultant presented at the previous Bayshore/Gateway Triangle CRA Advisory Board Meeting. It was also mentioned that the Growth Management
Department will review the final Redevelopment Plan prior to being received by The Planning Commission with plans of adoption in the first quarter of 2019.
