Parents and Guardians of Avalon Elementary School Students,

Construction and Roadway Improvements on Thomason Drive between Hamilton Avenue and Orchard Lane will continue during the upcoming 2020/2021 school year. Access will be maintained for all pedestrian and bicycle traffic travelling to and from Avalon Elementary School.

During the first 2-3 weeks of the new school year, students will be able to utilize existing crosswalks and sidewalks on the north and south sides of Thomason Drive as they have done in years past. Due to the upcoming construction phase that is going to occur on north side of Thomason Drive, between Bayshore Drive and Orchard Lane, the current sidewalk and crosswalk configuration may be altered. In the coming weeks, additional information and maps will be provided to nearby residents and Avalon Elementary School students prior to these changes being implemented.

We strongly encourage all parents and guardians of Avalon Elementary School students to assist their children when crossing Thomason Drive at the beginning and end of each school day. Also, we recommend all pedestrians remain on the designated pathways and sidewalks while traveling through the construction zone.
