July 13, 2022 Meeting Minutes

BAYSHORE BEAUTIFICATION MSTU MINUTES OF THE JULY 13, 2022 MEETING

The meeting of the Bayshore Beautification MSTU Advisory Committee was called to order by Maurice Gutierrez at 5:00 p.m. located at 4870 Bayshore Drive, FGCU Buehler Auditorium.

- I. **Roll Call:** Advisory Board Members Present: George Douglas, Maurice Gutierrez, Sandra Arafet, Susan Crum and Frank McCutcheon. Joann Talano had an excused absence. Bob Messmer was approved to attend virtually.
- II. **MSTU Staff Present:** Tami Scott, Project Manager, Debrah Forester, CRA Director and Shirley Garcia, Operations Coordinator.
- III. **Pledge of Allegiance:** Led by Maurice Gutierrez.
- IV. **Adoption of Agenda:** Ms. Forester added under Landscape Report the walking tour on July 22 @ 8:30am at the CRA Parking lot, and under new business e. Part Time Positions. Sandra Arafet made a motion to accept the Agenda as amended, second by George Douglas. Motion passed unanimously.
- V. **Adoption of Minutes:**
 - a. Minutes of the June 8th meeting- George Douglas made a motion to approve second by Maurice Gutierrez approved unanimously.
- VI. **Landscape Report:**
 - a. **Update on Landscaping** – Armando provided an overview of the Monthly maintenance report and reported power washing of the pedestrian pathways had begun at US41 and Bayshore Drive, so far it looked much better than it did before. He will go back to the areas they were unable to clean due to ongoing construction activity and clean those spots when they can. He noted the plants are looking good, with the amount of rainfall there have been no issues with irrigation because they haven't had to do much. He has downloaded an app to control the irrigation manually so if there is a leak he can turn them off immediately with the app.
- VII. **Community / Business Presentations:**
 - a. **Organic Fertilizer-** Aaron Sane/Joanne Smallwood attended to provide a presentation on the affects of the product that would replace harsh fertilizers. Ms. Pam Lulich, Landscape Operations Manager with Collier County was able to attend the meeting. Ms. Smallwood introduced herself and noted she has lived in

Bayshore Gateway Triangle CRA • Bayshore Beautification MSTU
Haldeman Creek MSTU

Item 4a

Naples for 52 years and has run a premier landscape architecture firm for over 30 years. She previously used chemical fertilizer until the big fish kill that impacted her neighborhood. She began a pilot project for Swan Lake -which covers 240 acres as part of the Venetian Village development. She contacted the City of Naples and Collier County to investigate, and they determined there was excessive nitrogen and phosphorous which is top ingredients in chemical fertilizer. She began working with Eco-labs and discovered the product enhanced the flowers and improved water quality. She met with City Staff who informed her they recently started a pilot project at Baker Park and the medians along Park Shore. Eco-Labs is working closely with the City to assure the material is applied correctly. Ms. Smallwood hopes the County will also start a pilot project similar to the City's and invited anyone to come out to see the project results from the use of this product. Aaron Sane provided a presentation with some information on the organic product and information on the ingredients to create the material. The product is manufactured in Cape Coral. He joined the company to manage turf and horticulture accounts. He noted, the product, Quantum Growth, improves plant photosynthesis, improves nutrients, and enhances soil biology. Pam Lulich had asked how long do they feel the pilot program will take and Mr. Sane replied 90 days would be a good start. Maurice Gutierrez was happy that the City of Naples was trying the product as a pilot program especially since they are so close to the water and wanted staff to reach out to Pollution Control to start a baseline for the pilot program. He thanked Karen Beatty for bringing this to their attention, and trying new methods that are beneficial to the environment. After much discussion by the Committee, Sandra Arafet made a motion to direct staff to put the pilot program together for the landscape within the medians, up to \$5,000, Susan Crum seconded the motion, approved unanimously.

VIII. Old Business:

- a. Coastal Vista Design Group-** Ms. Scott provided the scope of services for Median 20, 22, and 23 from Landscape Architect Leigh Gevelinger who has worked with the Botanical Garden on some projects as well. She reminded the committee that there were a lot of complaints about the entrance of Bayshore Dr and there were requests to have median 23 stand out as they enter off of US41. Ms. Gevelinger wanted to design the medians with low maintenance vegetation and creative color landscaping to enhance the entrance into Bayshore. Sandra Arafet made a motion to accept the proposal and if there were any changes to come back for approval, Frank McCutcheon seconded the motion, passed unimously.
- b. Palm Fertilizer-** Ms. Forester noted that this item was no longer needed since the committee agreed to move forward on the pilot program.

IX. New Business:

- a. Christmas Decorations-** Ms. Scott noted the comments received from community members to do more holiday decorations. She reviewed the exhibit in the packet that

Bayshore Gateway Triangle CRA • Bayshore Beautification MSTU
Haldeman Creek MSTU

Item 4a

included the items from 2021 and a proposed budget for 2022. Ms. Scott noted that at the CRA Advisory Board meeting, the Advisory Board requested that the theme be tropical instead of traditional and they recommended that instead of snowflakes, lit stars would be installed and instead of traditional holiday banners, tropical holiday banners be installed. The CRA Advisory Board approved partnering with the MSTU and contribute funds to cover the additional expenses. The MSTU had spent approximately \$28,000 in 2021. The estimated new budget with all of the banners would be approximately \$60,000. Sandra Arafet made a motion to approve the budget and the split with the CRA, George Douglas seconded the motion, passed unanimously.

b. Public Art Subcommittee-2 volunteers needed—Ms. Forester introduced John Melleky the County's new Public Art Manager who provided a summary of the position and what he has been coordinating since his hiring. Ms. Forester has attended the first art committee meeting and noted the interest in the Bayshore area and mentioned that several of the Public Art Committee are already connected to the Bayshore area. Due to the interest, Ms. Forester discussed creating a subcommittee with 2 volunteers from the CRA and 2 volunteers from the MSTU. Ms. Forester mentioned that Joann Talano was interested in volunteering. Maurice Gutierrez who else would volunteer. Susan Crum volunteered to be on the subcommittee.

c. Partnership with NBG Mexican Celebration- Ms. Forester introduced the idea of partnering with the Garden for the Mexican celebration they are planning for Fall 2022 through Fall of 2023. Ms. Scott recapped a meeting staff had with NBG staff and some of the concepts discussed which included installation of banners for the garden that would market the celebration. Sandra Arafet had some concerns for advertising for the garden and if staff starts putting things on the roundabout and poles she feels everyone will come and ask for their marketing banners and flags to be installed. The community added a comment that the Botanical Garden is a vital part of the Bayshore area and it is beneficial to partner with them for their events. Maurice Gutierrez reminded the committee we have always partnered with the garden and we should continue the relationship during their events. The consensus of the committee was to partner with the garden. Staff will keep the committee updated as concepts are further developed.

d. August 17 BGTCRA Special Meeting-Access Management Presentation- Ms. Forester asked the committee if they would be available to attend a joint meeting with the CRA Advisory Board on August 17th CRA to review the access management presentation. Ms. Forester noted that the MSTU is partnering with the CRA to fund the study and the MSTU will need to review and make recommendations on the findings. The meeting is scheduled for 5:30 pm at the garden. There were several committee members not available but most would attend for a quorum. Staff will send out an email for confirmation on the attendees.

Bayshore Gateway Triangle CRA • Bayshore Beautification MSTU
Haldeman Creek MSTU

Item 4a

- e. **Part time positions available-** Ms. Forester noted the part time position posted and emailed if anyone was interested in applying. Resumes could be emailed directly to her and she would contact the individuals to go over the job requirements. Staff has received several resumes for the Special Events position but no one responded for the maintenance position. Maurice Gutierrez noted that the MSTU should do a cost share for the maintenance position since it would benefit the MSTU as well. Maurice Gutierrez made a motion to support a part time position, George Douglas seconded the motion, approved unanimously.

X. Staff Reports:

- a. **CRA Directors Report-** Ms. Forester provided the report and highlighted some of the projects. Ms. Forester noted that Del's demo should take approximately 30 days, the contractor has started to stage equipment onsite. The next steps is to complete community outreach on what the community would like to see on the site and develop a concept plan on potential development.
- b. **Project Manager Report-** Tami Scott noted the royal palm trimming will start on Monday and asked if anyone had any questions about her project report.
- c. **Development Report-** submitted by Johnson Engineering for informational purposes.
- d. **Insurance Claims Report-** The monthly insurance claim report was attached including the latest accident that took out the Royal Palm on Bayshore Drive.
- e. **Financial Report-** The financial report was attached for this month if anyone had any questions.

XI. Communications and Correspondence

- XII. **Public Comments:** There was a comment about getting some art work on the holiday banners and if that was possible. Ms. Forester noted that the Public Arts Committee was just created so from a timing perspective staff will revisit looking at having an artist design artwork for the banners in the future.

August 17, 2022 Special Meeting Minutes

Item 4b

**BAYSHORE/GATEWAY TRIANGLE COMMUNITY REDEVELOPMENT LOCAL ADVISORY
BOARD & THE BAYSHORE BEAUTIFICATION MSTU OF THE AUGUST 17, 2022
SPECIAL MEETING**

The special meeting of the Bayshore/Gateway Triangle Community Redevelopment Advisory Board & the Bayshore Beautification MSTU was called to order by Chairwoman, Karen Beatty at 5:35 p.m.

- I. CRA Roll Call:** Advisory Board Members Present: Maurice Gutierrez, Steve Main, Al Schantzen, Steve Rigsbee, Kathi Kilburn, Mike Sherman and Karen Beatty. Camille Kielty was approved to attend virtually.

Steve Main made a motion to allow for virtual participation by board members, seconded by Al Schantzen. Passed unanimously.

MSTU Roll Call: Chairman Maurice Gutierrez, Susan Crum, Bob Messmer, George Douglas. Sandra Arafet, Frank McCutcheon and Joann Talano had excused absences. No Attendance virtually.

CRA Staff Present: Debrah Forester, CRA Director, Cristina Perez, Operations Manager, Tami Scott, Project Manager and Shirley Garcia, Operations Coordinator.

II. Pledge of Allegiance

III. Old Business:

- a. **Access Management Plan- Stantec Presentation-** Frank Domingo gave a presentation on the, analysis of Bayshore Drive including traffic counts and draft conceptual plans showing 4 roadway design options to review. Based on analysis, repurposing of the lanes could be accommodated after the bridge. The plan also is looking at options that would improve safety north of the bridge from the Bayshore/US41 intersection and Weeks. His next step is to provide the Transportation Department to review the operational analysis and to review the previous plans prepared by Norm Trebilock regarding roundabouts at strategic intersections south of the bridge. Mr. Domingo reassured the boards that Florida Department of Transportation (FDOT) has software that is designed to set the radius of the skirt on the roundabouts to accommodate the vehicle types and what they are transporting and what vehicle types that would most likely be using the road, including Fire, EMS, Tractor Trailers, etc. The roundabouts that are placed are designed to slow traffic and keep the traffic moving.
- i. **Advisory Board Discussion-** There were questions about roundabouts, how many were needed on Bayshore Drive and best locations. Concerns were expressed regarding the capability of trucks with large boat trailers being able to make it through a single lane road. Maurice Gutierrez is concerned about

Bayshore Gateway Triangle CRA • Bayshore Beautification MSTU
Haldeman Creek MSTU

all the left turn lane requirements when a new Commercial Development comes in and the loss of the medians and newly installed landscaping. He asked if this is truly a requirement for safety or can a roadway be designed to not have so many turn lanes. Frank Domingo said there may be a requirement for the areas that do not have parking or a roundabout but they can put one in if that is required, there will be more precise descriptions of what is needed as the concept plans are further developed. Mr. Gutierrez expressed concerns for spending a million dollars and then redoing the roadway in the future and spend another million dollars to remove it because of FDOT requirements. Mr. Domingo clarified that it is the land use with the intensity of the development that dictates what the turn lane requirements are, however, you cannot disconnect mobility from the land use. Everything is factored in when a development comes in adjacent to the roadway. Al Schantzen asked if the design from Mike McGee that was previously completed will be incorporated with the access management plan and not be tossed away, Ms. Forester noted that this design would be done first, then afterwards work with a landscape architect. Al Schantzen made a motion to support moving forward to repurpose the roadway as the next step and work with County Transportation to see if the numbers support changes, Steve Rigsbee second the motion. There were 2 nays. Motion passed 6 to 2.

Bob Messmer made the same motion as above, George Douglas second the motion. 2 nays and 2 for. There was more discussion because of the committee's confusion of removing the 2 lanes. Ms. Forester clarified the concepts presented are strictly conceptual and not all the designs were removing the lanes, there was a concept that leaves the existing roadway as it is today. After some discussion the Committee's consensus was to continue with approved motions. This item will be brought back to the CRA & MSTU Committees after more design concepts are completed and County Transportation reviews and supports the operational analysis. Ms. Forester noted the item will be brought back in October. Ms. Forester noted that the Board of County Commissioners will review and need to support any changes to the roadway as well.

Ms. Forester noted the survey that staff prepared to gather further input on the conceptual plans and requested everyone complete and submit to staff. The presentation and survey will also be posted on the Bayshorecra.com website and we will distribute it to through our distribution list.

- ii. **Public Comments-** There was a question about the concept that shows parallel parking next to the bike lane and if a passenger opens the door how can they prevent the bicyclist from getting hit? Mr. Domingo noted there are certain buffers that can be installed between the parking space and the bike lane that will prevent the door from extending into the bike path, Safety will always be

Bayshore Gateway Triangle CRA • Bayshore Beautification MSTU
Haldeman Creek MSTU

the first criteria in any design presented. There were some concerns if the lanes get reduced what happens when delivery trucks parked in the lane like they do now where can the cars go to get through or emergency vehicles? Same with busses, school and transit. Can they move the sidewalk closer to the street and the bike lane further to the right?

- b. **17 Acres Pedestrian Connection Update- Stantec Presentation-** Kevin Mangan, from Stantec presented the design concept for the pedestrian boardwalk connection into Sugden Regional Park. He mentioned water management plan onsite, native vegetation and littoral landscape and explained the design as it relates to moving people through the site. Mr. Mangan and his team wanted to create opportunities for the community to different experiences as they move through the site. The concept example presented had some nature land features, ideas for display of art features, and natural opportunities to visibly see while enjoying the meandering boardwalk through the preserve areas over the water to Sugden Park. He acknowledge that budget will also govern what can be completed. Phase 1 is the connection to Sugden Park.
- i. **Advisory Board Discussion-** Steve Main asked if the boardwalk was wide enough for both golf carts and pedestrians. Mr. Mangan noted there needs to be a decision on whether a golf cart be allowed on the boardwalk or if it's allowed in Sugden Park. Karen Beatty asked if there was a plan to install benches, Mr. Mangan said yes there are places for benches, trash receptacles, bike racks, etc. Al Schantzen asked how does emergency vehicles get in? Mr. Mangan noted there will be considerations for EMS to get them in as close as possible for any emergencies. Mike Sherman noted he liked the presentation and asked after connecting to Sugden Park where does it lead to in Sugden? Mr. Mangan advised they will look at the Park to see if there are benches or that it leads into in case someone needs to sit down and rest. Steve Main made a motion to approve the conceptual design concepts and to continue on, second by Karen Beatty, approved unanimously.
- ii. **Public Comment-** A comment from the community was to see if there are golf cart parking spaces because that would be ideal for going into the park.
- c. **Holiday Decorations-** Tami Scott presented the lowest bid for the tropical holiday banners which cost \$1853 for 35 banners. Bob Messmer asked to leave the American Flag since there are so many other holiday decorations and not buy any of those banners. Susan Crum does not like any of the banner choices provided. George Douglas agrees with Bob Messmer leave the flag banners up. Bob Messmer made a motion not to purchase any of the banners, second by George Douglas, approved unanimously.

Hurricane Ian has severely impacted our community. Our hearts go out to everyone that has suffered from this loss. Many resources are becoming available to assist in rebuilding our community. Below is a list of current resources that you may find useful. As neighbors continue to help neighbors, please pass on this information to those that are still without internet.

Individuals/Families

LOCAL ASSISTANCE WITH FEMA APPLICATIONS

The Salvation Army & United Way disaster case management team is working from 10/18-10/28 at United Way office 9015 Strada Stella court STE 204 Naples FL 34109 from 9a.m -3p.m. Helping families apply for FEMA and answer any questions they might have.

HARRY CHAPIN FOOD BANK OF SOUTHWEST FLORIDA

For the most recent information of distribution locations please visit <https://harrychapinfoodbank.org/> and review Hurricane Ian recovery updates.

COLLIER COUNTY SCHOOLS

Free breakfast and lunch will be available to ALL students attending Collier County Public Schools through October 31, 2022. Existing lunch account balances will not be charged during this period unless your child purchases a-la-carte (snack) items.

Where to get supplies and where to donate. Collier County Public Schools are stepping up to help during these uncertain times. Below is a list of schools that are collecting supplies and schools who are offering help. Check to see what your school is doing! If your school is collecting supplies, make sure you take your donations to that school.

<https://championsforlearning.org/news/collier-county-schools-where-to-get-supplies-and-where-to-donate/>

COLLIER COUNTY RESOURCE LISTING

For an additional listing of resources and information please visit www.colliercountyfl.gov

FEMA

Floridians who have been impacted by Hurricane Ian may be eligible for FEMA grants for temporary lodging or rental assistance if home is deemed uninhabitable by the storm. May also be eligible for basic home repairs, personal property losses and other eligible expenses. Applications for disaster assistance can be completed by calling 800-621-3362 between 7:00 AM to 11:00 PM EST or visiting www.disasterassistance.gov or through the FEMA mobile app. Applicants must apply for assistance within 60 days of the disaster declaration. When you apply for assistance, have the following information ready:

- A current phone number where you can be contacted
- Your address at the time of the disaster and the address where you are now staying
- Your Social Security number
- A general list of damage and losses
- Banking information if you choose direct deposit
- If insured, the policy number or the agent and/or the company name

Important to note: *FEMA is a stop gap for folks who are left without any coverage.* What does this mean? When you register with FEMA, and apply for assistance, you will have to declare your insurance coverage (if any) and you will be screened to determine if you qualify for a low-interest Federal loan through the Small Business Association (SBA) or a grant from FEMA. Representatives of FEMA have started to go door-to-door in the hardest hit areas, and it is very important to look for the FEMA identifying badge and the FEMA logo on their clothing.

How to Appeal FEMA's Decision If you receive a letter from FEMA saying you are ineligible for assistance, you can appeal the decision and provide more information. For information of how to file an appeal within 60 days of denial visit: <https://www.fema.gov/fact-sheet/how-appeal-femas-decision>

SALVATION ARMY

If you were affected by Hurricane Ian, the Salvation Army is offering a limit of one gift card per household; while funds are available to assist with recovery. Those individuals employed as a first responder, as a nurse, or as a school teacher who were affected by Hurricane Ian can also apply for a gift card; visit www.ianhelp.org Applicants must have been impacted by Hurricane Ian and be residents of Collier County. This is a limited program and is only available while funds remain. The Salvation Army can make no guarantees that all applicants will receive a gift card.

REDCROSS

How to get help? If you need a safe place to stay or a hot meal, find open shelters on redcross.org, the free Red Cross Emergency app or by calling 1-800-RED CROSS (800-733-2767) and selecting the disaster option.

Anyone who has been affected by the storm is welcome to stop by a shelter to get information, a hot meal, charge their phone, pick up relief supplies and get other essential support. The Red Cross helps anyone in need after a disaster, and everyone is welcome in our shelters. All disaster assistance is free, and we don't require people to show any kind of identification to enter a shelter — just their name and where they were living before the disaster.

SBA

The Small Business Administration (SBA) offers disaster assistance in the form of low interest loans to homeowners and renters located in regions affected by declared disasters. Application available at www.sba.gov/disaster.

Home Disaster Loans – Loans to homeowners or renters to repair or replace disaster-damaged real estate and personal property, including automobiles.

Applicants are encouraged to apply online for a disaster loan, if you have additional question or need assistance with your application please call SBA's Customer Service Center at 1-800-659-2955 or send email to:

disastercustomerservice@sba.gov. Website: www.sba.gov/funding-programs/disaster-assistance

RENTAL HOUSING OPTIONS

HurricaneHomes.org is a team effort to help those affected by natural disasters. The site was created by real estate industry veterans to help those in their time of need find housing options in one centralized location. The site works together with local Realtor® Associations and MLSs to identify housing inventory that is immediately available to those displaced from their homes. All revenue from the site is donated to 501c3 organizations that get every dollar into the hands of those in need. For example the [Florida Disaster Fund](#) and the [Florida Realtor® Relief Fund](#). For more information, please visit the following website for more information www.hurricanehomes.org

Another resource to look for housing is: www.naplesarea.org

This is a free, state resource for renters and property managers in Florida. Dynamic search options can help you find available rental housing fit your needs and income. www.floridahousingsearch.org For help searching and listing, please call 1-877-428-8844 (toll free) Monday-Friday, 9:00 a.m. - 8:00 p.m. Dial 7-1-1 for TTY.

SPECIAL NEEDS REGISTRY

The Florida Department of Health, in coordination with its county health departments and each local emergency management agency in the state, developed a registry for persons with special needs to register with their local emergency management agency to receive assistance during a disaster. The statewide registry provides first responders with valuable information to prepare for disasters or other emergencies. <https://www.floridadisaster.org/snr/>

CRISIS CLEANUP HOTLINE

A Home Cleanup Hotline was opened to support survivors of Hurricane Ian. With the collaboration of over 1,800 volunteer organizations, the Crisis Cleanup Hotline helps homes and businesses get on the path to recovery. Households in need of damage assistance can call: 1-800-451-1954, the hotline will remain open through Friday, October 28, 2022. <https://www.floridadisaster.org/info/> Crisis Cleanup may be able to help with: Fallen trees, Drywall, flooring, and appliance removal to curb, Tarping Roofs, Debris removal to curb.

DISASTER DISTRESS HELPLINE

SAMHSA's Disaster Distress Helpline provides 24/7, 365-day-a-year crisis counseling and support to people experiencing emotional distress related to natural or human-caused disasters. From the United States and its territories, call or text 1-800-985-5990 to connect with a trained crisis counselor, 24/7. Spanish Speakers can call the hotline and press "2" for 24/7 bilingual support.

DISASTER LEGAL SERVICES

Disaster Legal Services (DLS) provides free legal help to low-income disaster survivors. If you're not able to get adequate legal services for your disaster-related needs, DLS may be able to help. DLS may only provide advice and assist with cases that will not generate a fee. For cases that may generate a fee, the ABA may refer you to a local lawyer referral service. DLS may help with –Insurance claims for medical bills, loss of property, and loss of life. New wills, powers of attorney, and other legal papers lost during the disaster. Home repair contracts and contractors, Problems with landlords, Proof of home ownership, FEMA appeals. DLS attorneys are not FEMA employees. The services they provide are confidential. You can call 1-866-550-2929 or visit <https://www.disasterassistance.gov/get-assistance/forms-of-assistance/4464> for more information.

CRISIS CLEANUP

Crisis Cleanup opened a Home Cleanup Hotline for Hurricane Ian. They anticipate that most volunteer groups will work through Friday, October 28, 2022. Survivors needing assistance can call 800-451-1954.

DISASTER UNEMPLOYMENT ASSISTANCE

Disaster Unemployment Assistance (DUA) is available to Florida businesses and residents in FEMA disaster-declared counties whose employment or self-employment was lost or interrupted as a direct result of Hurricane Ian. To file a claim, visit <https://floridajobs.org/Reemployment-Assistance-Service-Center/reemployment-assistance/claimants/apply-for-benefits> or visit a local CareerSource Career Center, or call 1-800-385-3920. Customer service representatives are available Monday through Friday from 7:30a.m. to 6:30p.m. to assist claimants. For DUA claims information, call 1-833-FL-APPLY (1-833-352-7759) to speak with a representative. DUA is available for weeks of unemployment beginning September 25 until April 1, 2023, as long as the individual's unemployment continues to be a direct result of the disaster. The deadline to submit a claim for DUA benefits is December 30, 2022.

FLORIDA INSURANCE PROGRAM WAIVER

This program provides NFIP Standard Flood Insurance Policy Holders \$5,000 for combined building and contents losses, or up to \$20,000 for policy holders who can provide FEMA with photographic evidence of claims and demonstrate proof incurred out-of-pocket expenses related to repair or replacement of property insured under a Standard Flood Insurance Policy. For more information, please visit www.fema.gov/flood-insurance.

Hurricane Ian Business Owner Information Resources

Collier County businesses that suffered damages or loss may be eligible for Disaster loans and assistance. If you need assistance to rebuild your business and recover post-hurricane Ian, below is a list of resources that may be available. Please note the information for each website is subject to change.

NAPLES BUSINESS RECOVERY CENTER

The Small Business Administration (SBA) and the Florida Small Business Development Center (SBDC) have opened a business recovery center at The Naples Players located at 701 5th Ave S., Naples, FL 34102. Hours of Operations are Monday 9:00am-4:30pm and Tuesday thru Sunday 9:00am-5:00pm. You can obtain assist with the following programs:

- SBA Physical Disaster Loan
- SBA Economic Injury Disaster Loan (EIDL)
- Florida Small Business Emergency Bridge Loan Program

COLLIER COUNTY ECONOMIC DEVELOPMENT OFFICE

If your business was affected by Hurricane Ian, please visit www.collieredo.org/hurricane-ian-business-assistance to view a list of provided state and federal resources.

COLLIER COUNTY EMERGENCY MANAGEMENT

If your property/business sustained damages/loss your participation is appreciated to help us collect data so we have the ability to assess the highest impacted areas. This is voluntary and **not a form for local, state, or federal assistance.**

www.crisistrack.com/public/collierFL/citizenRequest.html

COLLIER COUNTY GROWTH MANAGEMENT DEPARTMENT – BUILDING DIVISION

As Collier County business owners begin the clean up and start the rebuilding process, the Collier County Growth Management Community Development Services Department wants to assist you with a speedy recovery process. Permits will not be required for the cleanup and removal of wet drywall, cabinets, carpeting, and baseboards. Please keep the demo to the minimum necessary to not negatively impact the ability to rebuild within the guidelines of FEMA regulations. For example, do not remove the electrical wiring system because it has an outer sheath that is water-resistant.

All commercial and multi-family buildings will require a permit for any work performed. Permits are also required for work performed on life safety systems, e.g., fire alarm and fire sprinkler systems. Please contact your local fire district. All temporary generators for commercial and multi-family buildings are also required to be permitted. For more information, please visit:

<https://www.colliercountyfl.gov/government/growth-management/divisions/post-hurricane-ian-recovery>

FEMA

Businesses that suffered loss/damages can choose among the various assistance disaster programs. For further information visit www.fema.gov/business-industry/doing-business/small-business

SBA

The Small Business Administration (SBA) offers disaster assistance in the form of low interest loans to businesses, nonprofit organizations, homeowners, and renters located in regions affected by declared disasters. SBA also provides eligible small businesses and nonprofit organizations with working capital to help overcome the economic injury of a declared disaster. www.sba.gov/disaster.

SBA Economic Injury Disaster Loans – Working capital loans to help small businesses, small agricultural cooperatives, small businesses engaged in aquaculture, and most private, non-profit organizations of all sizes meet their ordinary and necessary financial obligations that cannot be met as a direct result of the disaster. These loans are intended to assist through the disaster recovery period.

SBA Physical Disaster Loans – Loans to businesses to repair or replace disaster-damaged property owned by the business, including real estate, inventories, supplies, machinery, and equipment. Businesses of any size are eligible. Private, non-profit organizations such as charities, churches, private universities, etc., are also eligible.

Home Disaster Loans – Loans to homeowners or renters to repair or replace disaster-damaged real estate and personal property, including automobiles.

Applicants are encouraged to apply online for a disaster loan, if you have additional question or need assistance with your application please call SBA's Customer Service Center at 1-800-659-2955 or send email to: disastercustomerservice@sba.gov or visit

www.sba.gov/funding-programs/disaster-assistance

Application filing deadlines:

- Physical damage: November 28, 2022
- Economic injury: June 29, 2023

STATE AND FEDERAL TAX INQUIRIES

IRS Excise Tax – Disaster Assistance and Emergency Relief, the IRS may waive tax penalties on disasters on a case by case bases. A special tax law provision may help taxpayers and businesses recover financially from the impact of a disaster. Visit www.irs.gov/businesses or for more information call 1-800-829-1040.

Florida Department of Revenue – The Florida Department of Revenue will waive penalties and interest during the period of emergency for impacted taxpayers who are unable to file returns and/or make payment of taxes on time. For assistance call (800) 352-3671 or visit <https://ritx-fl-sales.bswa.net>

FLORIDA SMALL BUSINESS EMERGENCY BRIDGE LOAN

The Florida Small Business Emergency Bridge Loan program are intended to “bridge the gap” between the time a disaster impacts a business and when a business has secured longer term recovery funding such as federally or commercially available loans, insurance claims or other resources. Florida requires loans under this program to be repaid by the approved applicant. Owners may utilize funding from longer term financial resources, such as U.S. Small Business Administration economic injury disaster loans, to repay the Emergency Bridge Loan. For program details and required documents visit www.floridajobs.org/EBL

FLORIDA DEPARTMENT OF ECONOMIC OPPORTUNITY

The Florida Department of Economic Opportunity announced work search reporting, waiting week and Employ Florida registration requirements for Reemployment Assistance claims have been temporarily waived for Floridians impacted by Hurricane Ian in FEMA disaster-declared counties. By waiving these requirements, eligible Floridians will be able to quickly apply and receive reemployment assistance and disaster unemployment assistance benefits. Additionally, Disaster Unemployment Assistance is available to state businesses and residents in FEMA disaster-declared counties whose employment or self-employment was lost or interrupted as a direct result of Hurricane Ian and are not eligible for regular state or Federal Reemployment Assistance benefits. To file a claim call 1-800-385-3920 or visit: <https://www.floridajobs.org/ianrecovery>

NAPLES CHAMBER

For current information and resource post Hurricane Ian for Collier County Business please visit <https://www.napleschamber.org/hurricanesresources.html>

LICENSED CONTRACTORS

Only hire licensed contractors certified by the state and your local jurisdiction. If the contractor requests you pull the permit, it may be an indication that he is not properly licensed and is not entitled to permitting privileges. You can verify a contractor’s license at www.MyFloridaLicense.com.

Additionally, for local contractor information you can visit Collier County Government

<https://www.colliercountyfl.gov/government/growth-management/divisions/operations-regulatory-management/contractor-licensing> . Contractor Licensing Phone: (239) 252-2431

After Hours Contractor Complaint Line: (239) 252-5607 or mail: contractorslicensing@colliercountyfl.gov Hours of Operation: Monday - Friday, 8:00 a.m. - 5:00 p.m.

FLORIDA DISASTER (DISASTER UNEMPLOYMENT ASSISTANCE)

The purpose of Disaster Unemployment Assistance (DUA) is available to Florida businesses and residents in FEMA disaster-declared counties whose employment or self-employment was lost or interrupted as a direct result of Hurricane Ian and are not eligible for regular state or Federal Reemployment Assistance benefits. To file a claim, visit <https://floridajobs.org/Reemployment-Assistance-Service-Center/reemployment-assistance/claimants/apply-for-benefits> or call **1-800-385-3920**. Customer service representatives are available Monday through Friday from 7:30a.m. to 6:30p.m. to assist claimants. For DUA claims information, call 1-833-FL-APPLY (1-833-352-7759) to speak with a representative.

FLORIDA DISASTER RECOVERY (STATE RESOURCES)

For a listing of state recovery resources, links and information, visit www.floridadisaster.biz/ManageContent?PageID=RECOVER

Florida Business Damage Assessment Survey: Businesses that are damaged after a state-designated emergency can fill our the Damage Assessment Survey to provide information about the damage and connect with available resources. The information

provided in this survey will be shared among various state and local agencies to expedite implementation of appropriate disaster relief programs for businesses.

U.S. Chamber of Commerce Small Business Recovery Guide: A collection of resources designed to reopen your business and assist with long-term recovery, including immediate needs, financial assistance, IT disaster recovery, mental health, and community recovery.

IEDC Restore Your Economy: Restore Your Economy is your resource for up-to-date information related to economic recovery from natural disasters and COVID-19. It is managed by the International Economic Development Council (IEDC) with generous support from the U.S. Economic Development Administration and IEDC's Economic Development Research Partners program. **Rebuild**

Florida Office of Long-Term Resiliency: Rebuild Florida was created by DEO to help Florida's long-term recovery efforts from recent hurricanes. DEO oversees Community Development Block Grant- Disaster Recovery (CDBG-DR) funding for hurricanes Hermine, Matthew, Irma, and Michael as well as CDBG-Mitigation funding. The state of Florida is committed to helping homeowners, small businesses and communities recover from recent storms and become more resilient to future disasters.

Rebuild Florida Business Loan Fund: The Rebuild Florida Business Loan Fund, a resiliency loan fund provided through a partnership with the U.S. Economic Development Administration, is assisting businesses that experienced physical damage or economic injury from Hurricane Irma. It provides longer-term loans with higher funding levels at market interest rates. Up to \$500,000 in financing can be provided to an eligible business for the following purposes: inventory purchases, construction, or renovation, working capital needs, capital start-up loans, machinery and equipment purchases, equipment financing, and more.

MIDAS TOUCH

Item 10c

Naples jewelry designer and a primary catalyst behind the Bayshore Arts District, Amanda Jaron, reenergizes everything she touches—whether it's her jewelry, philanthropy or neighborhood.

BY [LAUREN AMALIA REDDING](#) | SEPTEMBER 1, 2022

(Photo by Anna Nguyen)

Even [Amanda Jaron's](#) eyeglasses have a gem-like quality. Her cat-eye Lucite frames are faceted, like the many stones that adorn the Naples jewelry designer's hands; the spec's iridescence complements her silver hair. "I became an empty nester and I turned 50 this year," she says with a laugh. "So, I allowed myself to go gray."

Amanda's skilled at sparking reinventions. She maximizes the one-two punch of her creative flair and business acumen to share new visions for her jewelry line, as well as revitalize the causes and communities near to her heart.

Most locals are plenty-familiar with the stylish, straight-shooting dynamo, who has been a favorite among Naples' fashion insiders since founding A. Jaron Fine Jewelry in 2004. For those new to the scene, it's worth revisiting her bonafide credentials: Before coming to Naples, Amanda lived in New York City, where she worked for Givenchy, Tommy Hilfiger and led Avon's jewelry design team during the company's heyday. Her line's known for luxurious statement pieces that effortlessly blend a punk-rock boldness with romantic whimsy. With a degree in metalsmithing and fine art from Philadelphia's University of the Arts, Amanda balances her honed artistic instincts with metal precision and chemistry. "The ability to use both sides of the brain isn't typical of artists, but it's typical of jewelers," she says, "It's as much a science as an art because you have to figure out how to make something from nothing."

Walking into Amanda's showroom, you'll often find her dogs, Opal and Pearl, playing in front of antique gold-and-black display cases stocked with sculptural rings, statement necklaces and modern drop earrings. A sofa, upholstered in rich plum velvet, perches near a wall that's been papered with drawings of previous designs. "Everything here is made from scratch," she says. "There's no catalog." Amanda starts every project by sketching a visual reference, which she'll often gift to clients as a prismatic memento of their work together.

In addition to her original creations, Amanda's sought out for her heirloom designs, in which she reimagines pieces into individualized, contemporary jewels in a process she's vivaciously branded as "Bling Overs." During the pandemic, she started posting detailed sketches and before-and-after photos of each redesign on Instagram, sparking renewed interest in the series. "With Bling Overs, the palette's always already designed for you," she explains. "You're working with yellow gold from your client's grandmother or her mom's stones. But you get to give them new life, new color."

The designer—known for her whimsical jewelry—has helped catapult Naples' Bayshore Arts District since she opened her boutique there in 2017. (Photo by Anna Nguyen)

The mother-of-two approaches all her pursuits with improvement-oriented savvy. Giving back is central to her life, and she eschews buzzy causes and galas in favor of connecting with issues that intimately speak to her, like supporting public education. Last year, the teachers recognized in Champions for Learning's Golden Apple awards donned gold-and-diamond necklaces by Amanda. Local nonprofits have looked to her as a secret weapon for their philanthropic committees, where she helps brainstorm out-the-box ideas to enliven events and expand marketing. In 2017, Naples Art tapped Amanda to shape their now-popular Scene to Be Seen gala, which she suggested anchoring with a fashion show where local talent presents imaginative wearable art, using unusual materials and sculptural designs.

She's also used her vivaciousness and creativity to fuel the growth of the Bayshore Drive area, where she moved in 2015 and opened her studio in 2017. "People actually called me brave for being in Bayshore," she says, with the exasperation of a former New Yorker who isn't deterred by so-called tough neighborhoods. "Maybe a few years ago, it was shadier, but, to me, it's quirky, it has character." Emboldened by Bayshore's bohemian atmosphere, Amanda commissioned local artist, Marcus Zotter, to paint an Instagrammable mural of a massive mermaid on the side of her studio. She shared photos of the mermaid on social media and tagged each post with #BayshoreArtsDistrict—a moniker that had floated over the decades with efforts to revitalize the once-seedy neighborhood. Soon, other area artists adopted the hashtag. A movement emerged.

As grassroots interest skyrocketed, Amanda thought of ways to solidify the area as an arts destination, despite the lack of real estate for artists. She's engineered event series to draw attention and concentrated art activity, including starting *Art Among the Blossoms*, an outdoor art fair at Green Door Nursery, and *Music Under the Mermaid*, a music festival held at her showroom and featuring local high schoolers. During the pandemic, she corralled artists to paint hundreds of wooden butterfly cutouts for an installation called *Transformation*, which they mounted on fences and trees, luring visitors for a COVID-safe, outdoor art stroll.

She's sought out for her Bling Overs, in which she takes heirloom pieces and reimagines them into modern, wear-everyday designs. In many ways, Amanda is the Bayshore Arts District. Look at the neighborhood's info webpage and you see a picture of her standing in a floral ball gown skirt in front of her mermaid mural. Though studio space is still limited, the area's become known for its street art, and there's been an influx of creative businesses since she moved in, like Bean to Cup Coffee Lounge, Ankrolab Brewing Company, the Things I Like by Catherine gallery and zero-waste retailer The Humble Hut.

As the Bayshore Arts District blossoms, Amanda remains at the center, drawing her loyal shoppers and new, younger followers that reflect Naples' shifting demographic. "I'm sort of becoming a family jeweler," she says. "Young couples come to me for an engagement ring, then come back for their wedding bands, their first anniversary, their first kid. I just love that." Her clients appreciate her glittering inventory as much as her egalitarian, open-minded spirit. In her showroom, you'll find a high-dollar necklace with green tourmaline, blue topaz and diamonds near a \$35 Lucite cuff. "With designing jewelry, you need to be clear in your vision but still have something for everyone," she says. "It's inclusive; just like how in Bayshore, there's no gate."
